Annual Report for 2016-17 as per the provisions of the Plastic Waste Management, Rules, 2016

1. Introduction:

The Government of India, Ministry of Environment and Forests published the Plastic Waste (Management and Handling) Rules, 2011 vide notification number S.O 249 (E), dated 4th February, 2011 by, as amended from time to time, provided a regulatory frame work for management of plastic waste generated in the country. The Central Government reviewed the existing rules to implement these rules more effectively and to give thrust on plastic waste minimization, source segregation, recycling, involving waste pickers, recyclers and waste processors in collection of plastic waste fraction either from households or any other source of its generation or intermediate material recovery facility and adopt polluter's pay principle for the sustainability of the waste management system. In exercise of the powers conferred by sections 3, 6 and 25 of the Environment (Protection) Act, 1986 (29 of 1986), and in supersession of the Plastic Waste (Management and Handling) Rules, 2011, the Central Government published the **Plastic Waste Management Rules, 2016** vide notification no G.S.R 320(E), New Delhi, the 18th March, 2016.

These rules are applicable to every waste generator, local body, Gram Panchayat, manufacturer, Importers and producer but the rule 4 is not applicable to the export oriented units or units in special economic zones, notified by the Central Government, manufacturing their products against an order for export, Provide this exemption shall not apply to units engaged in packaging of gutkha, tobacco and pan masala and also to any surplus or rejects, left over products and the like.

As per the provision of the Rule, 17 Every person engaged in recycling or processing of plastic waste shall prepare and submit an annual report in Form-IV to the local body concerned under intimation to the concerned State Pollution Control Board or Pollution Control Committee by the 30th April, of every year. Every local body required to prepare and submit an annual report in Form -V to the concerned Secretary of the Urban Development Department under intimation to the concerned State Pollution Control Board or Pollution Control Committee by the 30th June, every year. The State Pollution Control Board has to prepare and submit an annual report in Form VI to the CPCB on the implementation of these rules by the 31st July, of every year.

It is to be made clear that the recycling and processing of the plastic waste is not being done by the organised sector in the State of Madhya Pradesh. The plastic is being collected through the rag pickers, sold to the kabadies from where it is being sent for the recycling out of the State or out of State. There are not much recycling / waste processing units in the State. However, in some of the Local Bodies, the plastic is being segregated from the Municipal Solid Waste as collected through the ragpicker which is being sent to the Cement Plants for the co-processing. Some NGOs are also engaged in this social work for the improvement of the livelihood of the ragpickers. It is clear from the above that the Local Bodies are not getting any annual reports from the recyclers or the plastic waste processors. The annual reports are being prepared by the Local Bodies on the basis of the Municipal Solid Waste collection and partial segregation. It is the reason that most of the Local Bodies are not submitting the annual reports.

2. Quantification of the Plastic Waste generation:

The quantification of the plastic waste generation has been done on the basis of the annual reports received from some of the Local Bodies and some information has been gathered by interviewing the ragpickers. The exercise has been done through 16 Regional Offices of the Board. There were 377 local bodies and 05 cantt Boards responsible for the Municipal Solid Waste Management in the State during 2016-17, the Region Wise detail is as follows:

S. No.	Regional Office	Type of Local Bodies				Total
		Municipal Corporations	Municipal Councils	Nagar Parishads	Cantt Boards	
1	Bhopal	01	18	26	01	46
2	Chhindwara	01	07	09	00	17
3	Jabalpur	01	12	18	01	32
4	Katni	01	00	03	00	04
5	Shahdol	00	08	10	00	18
6	Singrauli	01	00	00	00	01
7	Rewa	01	01	14	00	16

8	Satna	01	01	10	00	12
9	Sagar	01	13	37	01	52
10	Guna	00	09	23	00	32
11	Gwalior	02	08	23	01	34
12	Indore	03	06	23	01	33
13	Dhar	00	04	14	00	18
14	Pithampur	00	01	00	00	01
15	Ujjain	02	08	36	00	46
16	Dewas	01	02	17	00	20
	Total	16	98	263	05	382

The quantity of the Municipal Solid Waste disposal facilities is considered as 6996 MT/day. The quantity of plastic waste generated as per the information received from the 377 local bodies during the year 2016-17 is **50457.07 MT** which is around 2% of the quantity of the Municipal Solid Waste considered as a designed quantity for the purpose of proposed disposal facilities. Since, most of the local bodies are very small and listed as Nagar Parishad; hence, the quantity seems to be realistic. The information is not received from the Cantt Boards.

3. Plastic Carrybag manufacturing, recycling and Multilayer Packaging Industries:

The quantity of the plastic goods manufactured in the State is negligible in comparison to the shipping from the neighboring States. It is estimated that around 60000 MT/Year plastic goods (Toys, Molded Furniture, Domestic Goods, Packaging Materials and Polythene Carry Bags etc.) are coming from Delhi, Maharashtra, Gujrat, Punjab, Hariyana, and Chhattishgarh & Uttar Pradesh. Delhi, Bombay, Nagpur, Baroda, Chandigarh, Raipur and Kanpur are the major feeder of Polythene Carry Bags to the State. The regular inspections of the carry bgs manufacturing units are being carried out by the Regional Offices of the Board and no violation has been observed during the year. The Region wise list of the plastic carrybags manufacturing, plastic recycling through
